**Cities** adapt the experience of a successful Urban Innovative Actions' project and develop an investment plan to implement it.

# [Why are we here?

Because...

- ✓ You want to tackle an urban policy challenge and find solutions through the **transfer of an innovative practice**.
- ✓ You wish to improve or change local policies by **sharing experiences and exchange knowledge with other European cities** working on similar challenges.
- ✓ You are eager to involve relevant key stakeholders and **practice participatory culture** by learning new tools and methods for effective policy- making.
- ✓ You want to **experiment** at local level.

# STEP 1: Forming your ULG!

# [About the URBAC Local Group?

Each URBACT partner is required to set up a Local Group gathering key local stakeholders in order to co-produce city strategies and action plans.

The main objective of the ULG is to bring around the table the different interests at stakes and different perspectives to frame problems and agree policy priorities, and concrete solutions to address these problems in the most efficient way.

It is not a „one size fits all“ framework. Depending on the issue they want to address, on the local context and previous experiences, each ULG will build on a different mix of local stakeholders (e.g. members of other departments, elected representatives, different tiers of government, beneficiaries, NGOs, private sectors, etc.).

The URBACT LSG Toolkit & EmPowerIngUs ULG Tips & Tricks.
